SUMMARY

Cybersecurity Engineering student with hands-on experience in penetration testing, vulnerability assessment, and AI security, gained through cyber police investigations, red team operations, SOC development, and national-level CTF organization.

EDUCATION

St. Vincent Pallotti College of Engineering & Technology <i>B.Tech in Computer Science (Cybersecurity) CGPA: 7.87</i>	Nagpur, Maharashtra 2023 – 2027
Adarsh Sanskar Vidyalaya <i>Higher secondary education, Computer Science</i>	Nagpur, Maharashtra 2021 – 2023

EXPERIENCE

Cyber Defence Intern <i>Hindalco Industries Limited (Aditya Birla Group)</i> Supporting SOC operations through security monitoring, threat analysis, log investigation, incident response, and security event management.	June 2026 – Present <i>Mumbai, Maharashtra</i>
Cybersecurity Investigator Intern <i>Nagpur Cyber Police</i> - Built and deployed an APK Malware Analysis Tool (hosted on personal portfolio) to automate APK decompilation, static analysis, and report generation for faster investigation workflows. - Developed understanding of ISP infrastructure, IP allocation, NAT, and network tracing techniques for incident response and cybercrime investigations.	June 2025 – July 2025 <i>Nagpur, Maharashtra</i>

PROJECTS

Pentest <i>React 19, Vite, Node.js, jsPDF, Cybersecurity</i> - Developed a full-stack web application to automate end-to-end penetration testing workflows including reconnaissance, vulnerability detection, and reporting. - Implemented reconnaissance features such as DNS enumeration, port scanning, Google Dorking, web crawling, and technology fingerprinting to map attack surfaces.	June 2024 – Sep. 2024
Lab SOC Platform <i>Python, Cybersecurity</i> Designed a custom SOC platform simulating real-world SIEM workflows for log analysis, alert correlation, threat detection, and incident response across multiple monitored systems.	Jan. 2025 – April 2025

TECHNICAL SKILLS

Security: Penetration Testing, Vulnerability Assessment, Digital Forensics, Web Security, Network Security, Incident Response, Threat Hunting, SIEM, SOC, AI Security, Governance Risk & Compliance (GRC)
Tools: Nmap, Burp Suite, Metasploit, Wireshark, Nikto, DNSRecon, Ghidra, OWASP ZAP
Systems: Linux (Kali, Ubuntu), Windows, macOS
Programming: Python, C++, HTML, CSS

CERTIFICATIONS

- Google Cybersecurity Certificate
- Certified Network Security Practitioner (CNSP) – The SecOps Group
- Certified Red Team Operations Management (CRTOM) – Red Team Leaders
- Certified Social Engineering Defense Practitioner (CSEDP) – The SecOps Group

ACHIEVEMENTS

- 1st Place – International Cyber Summit CTF 2025
- 2nd Place – HICATHon CTF (Symbiosis Pune)
- 2nd Place – Smart India Hackathon Internal (SIH 2025)
- Co-Lead – Hackers Meetup Nagpur
- Associate IT Admin – Phoenix Cybersecurity Club
- Joint Secretary – Rotaract Club
